- ADVANTAGES

1. Approvals on time . The entire process of planning and managing a trip is a long and stressful process.....

2. Customize approval workflow. The approval process can differ from company to company.....

DISADVANTAGE

1.This is tha principal disadvantage of business travel, and frequent traveling can be responsible for creating significant health problems for employees.

2. Because of this employee can't concentrate on their work . Which affects tha organizations productive.

6 APPLICATION

Salesforce, Vehicle management and trailhead

7 CONCLUSION

In this project we learn about how to managing a trip and uses personal information gathering the datas, for the management system

8 FUTURE SCOPE

Here future generations have lots scope in it because its fully about our build a employee travel.
